

CAN ANYONE GET IV THERAPY?

Almost anyone can benefit from IV therapy. Our process ensures everyone fills out our medical form to be reviewed by our staff before treatment begins. Patients with certain medical conditions may not be appropriate for our treatment. We do not treat minors under the age of 18.

Additionally, we offer a variety of IV therapy treatments to help you restore the natural balance of your body. All of our services are administered by licensed medical professionals.

WHY CHOOSE RENOVAR?

Renovar Wellness staff have completed training through IV Therapy Academy and are thoroughly educated on many aspects of IV Nutritional therapy including:

- The most effective evidence-based IV nutrition protocols
- Ensuring the highest level of patient safety
- Outstanding customer service and compassionate care

IV THERAPY

THE BASICS

IV vitamin therapy is a concentrated delivery of essential nutrients to the bloodstream. It provides direct absorption of vitamins and minerals, which are utilized more effectively than when taking vitamins by mouth.

BENEFITS

- | | |
|------------------|-------------------|
| Immune Boost | Higher Alertness |
| Removes Toxins | Faster Metabolism |
| Reduced Bloating | Fewer Headaches |
